

# MOHAMMED ASIF

## Python Developer

### My Contact

✉ asifc246@gmail.com

☎ 9544155794

📍 chathambath house near v c  
road mananthavady  
,wayanad,kerela,india.

### Hard Skill

- python
- html,css,bootstrap
- python frameworks like django,flask
- Mysql,sql,postgresql
- django ORM
- javascript, jquery

### Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

### Education Background

- Mary Matha arts and Science College  
Mananthavady  
*Bachelors in Computer Science*  
Completed in 2020
- GVHSS Kartikulam  
*plus two eduaction in general science*  
Completed in 2017
- Modern English School Kellur  
*10th education cbse.*  
Completed in 2015

### About Me

Experienced Python developer with a passion for crafting efficient and scalable software solutions. Strong analytical skills and a solid foundation in computer science allow me to thrive in creating innovative applications that address complex business challenges.

I am highly proficient in Python and have a deep understanding of various frameworks and libraries, including Django and Flask. I have hands-on experience in implementing database solutions and optimizing application performance.

### Professional Experience

Riss Technologies | Software Associate  
*june 1st 2022 - may 31st 2023*

Key responsibilities:

- Collaborated with a team of developers to design, develop, and maintain software solutions for clients.
- Participated in the complete software development life cycle, including requirements analysis, design, coding, testing.
- Worked on multiple projects simultaneously, ensuring timely delivery and adherence to quality standards.
- Conducted thorough testing and debugging to identify and resolve software defects.

Key Projects:

1. Turf Booking Web App
- Collaborated with a team of developers to design, develop, and deploy a turf booking web application using Python and Django framework.
  - Created a user-friendly interface for users to browse and book available turfs
  - Implemented authentication and user management features, allowing users to create accounts, log in, and manage their bookings.
  - Utilized Django's ORM to interact with the database, ensuring efficient data storage and retrieval..

### Courses

- python full stack from networkz system calicut
- python bootcamp from udemy

### Languages

- English
- Malayalam
